Junk / Salvage / Insurance Records

This section lists junk, salvage, and insurance records (if any).

Source: NMVTIS

Date	Reporting Entity	Details
2022-11-22	I.E.A.C. COSTA MESA, CA Phone: 3102175200	Damage Type: Junk And Salvage Disposition: SOLD Intended for Export: NO
2022-11-22	I.E.A.C. COSTA MESA, CA Phone: 3102175200	Damage Type: Junk And Salvage Disposition: TO BE DETERMINED Intended for Export: NO

Explanatory Note:

If VIN has a record in the **Junk/Salvage or Insurance** information then the business that submitted the VIN to NMVTIS deemed the vehicle to be either a junk, salvage, or in the case of an insurer, a total loss. The information in the DISPOSITION field in the **Junk/Salvage** section denotes what has happened to the VIN (i.e., vehicle) since it came into the possession of the business.

Accident Check

This section lists accident records from available independent sources.

Source: VinAudit

✓ No accident records were found for this vehicle in the available databases.

Accident history is typically reported by law enforcement agencies, insurance companies, and other independent sources. If the vehicle has been involved in an accident that was not reported to these sources, it may not appear in this report.

Theft Check

This section lists active theft and theft recovery records for this VIN.

Source: VinAudit

✓ No active theft or theft recovery records were found for this vehicle in the available databases.

Theft records are typically reported by law enforcement agencies and insurance companies. If the vehicle has been reported stolen and not yet recovered, or if it was previously stolen and later found, these details would appear here.

Lien / Impound / Export Records

This section lists lien, impound, and export records (if any).

Source: VinAudit

✓ No lien, impound, or export records were found for this vehicle in the available databases.

These records typically indicate if the vehicle has an outstanding loan, has been impounded by authorities, or has been exported to another country. Some records may not be publicly available or may vary by reporting jurisdiction.

VinAudit Report Disclaimer

The information used to compile this report is aggregated from various government agencies, non-profit organizations, and industry sources. Access to the National Motor Vehicle Title Information System (NMVTIS) is facilitated through VinAudit Inc., an Approved NMVTIS Data Provider. Sections of this report containing data from NMVTIS are labeled with "Source: NMVTIS". No vehicle registration records are provided by NMVTIS. The accuracy and reliability of the information supplied depend primarily on the reporting sources, and all entities involved in compiling this report accept no liability for any errors or omissions. Furthermore, all warranties, expressed or implied, including any implied warranties of merchantability or fitness for a particular purpose, are hereby disclaimed.

NMVTIS Consumer Access Disclaimer

The National Motor Vehicle Title Information System (NMVTIS) is an electronic system that contains information on certain automobiles titled in the United States. NMVTIS is intended to serve as a reliable source of title and *brand* history for automobiles, but it does not contain detailed information regarding a vehicle's repair history.

All states, insurance companies, and junk and salvage yards are required by federal law to regularly report information to NMVTIS. However, NMVTIS does not contain information on all motor vehicles in the United States because *some states* are not yet providing their vehicle data to the system. Currently, the data provided to NMVTIS by states is provided in a variety of time frames; while some states report and update NMVTIS data in "real-time" (as title transactions occur), other states send updates less frequently, such as once every 24 hours or within a period of days.

Information on previous, significant vehicle damage may not be included in the system if the vehicle was never determined by an insurance company (or other appropriate entity) to be a "total loss" or branded by a state titling agency. Conversely, an insurance carrier may be required to report a "total loss" even if the vehicle's titling-state has not determined the vehicle to be "salvage" or "junk."

A vehicle history report is **NOT** a substitute for an independent vehicle inspection. Before making a decision to purchase a vehicle, consumers are strongly encouraged to also obtain an independent vehicle inspection to ensure the vehicle does not have hidden damage. The *Approved NMVTIS Data Providers* (look for the NMVTIS logo) can include vehicle condition data from sources other than NMVTIS.

NMVTIS data includes (as available by those entities required to report to the System):

Information from participating state motor vehicle titling agencies.

Information on automobiles, buses, trucks, motorcycles, recreational vehicles, motor homes, and tractors. NMVTIS may not currently include commercial vehicles if those vehicles are not included in a state's primary database for title records (in some states, those vehicles are managed by a separate state agency), although these records may be added at a later time.

Information on "brands" applied to vehicles provided by participating state motor vehicle titling agencies. Brand types and definitions vary by state, but may provide useful information about the condition or prior use of the vehicle.

Most recent odometer reading in the state's title record.

Information from insurance companies, and auto recyclers, including junk and salvage yards, that is required by law to be reported to the system, beginning March 31, 2009. This information will include if the vehicle was determined to be a "total loss" by an insurance carrier.

Information from junk and salvage yards receiving a "cash for clunker" vehicle traded-in under the Consumer Assistance to Recycle and Save Act of 2009 (CARS) Program.

Consumers are advised to visit www.vehiclehistory.gov for details on how to interpret the information in the system and understand the meaning of various labels applied to vehicles by the participating state motor vehicle titling agencies.
